CIA IMAGERY ANALYSIS DIVISION

OTROKOVICE AIRFRAME PLANT

Otrokovice Airframe Plant is located on the southwest edge of Otrokovice Czechoslovakia and was last observed on [REDACTED]

An analysis of this coverage indicates a very low level of activity at the plant. No smoke, vehicles or aircraft were observed in the factory complex.

The plant is secured by a fence and does not appear to be rail-served. There is, however, a rail line adjacent to the plant which could be extended into the complex if desired.

Figure 3 and Table I identify and give dimensions of plant facilities. All measurements have been made by the NPIC Technical Intelligence Division and are considered to be accurate within ± 10 feet or ± 5 per cent whichever is greater.
